

CONTRACTOR MANAGEMENT

MAINTAIN HIGH CONTRACTOR SAFETY STANDARDS

Effective working relationships with contractors are crucial for successful project management and operations. Since organisations have different approaches to health and safety, **it is essential that your contractors understand your specific requirements.**

To ensure everyone's health and safety, and to maintain safe working practices at your sites, **it is important to use approved and qualified contractors.**

With Assure, you can streamline contractor management by consolidating all your contractor information in one system. **Your teams always have a list of qualified contractors available that are well-informed about your safety requirements.**

EXPECTED OUTCOMES

Select approved contractors with confidence
Contractors with the right qualifications, insurance and training can be easily selected when needed.

Ensure safer contractors and workplaces Pre-qualify and onboard contractors into your health and safety processes with mobile tools.

Manage high risk work processes safely
Be confident that contractors with proper training and knowledge are used for high-risk tasks.

Reduce administration tasks and save time
Standardise the vetting and approval of contractors across your organisation.

HOW DOES IT WORK?

Select from approved contractors

Manage your contractors efficiently all in one system. Easily select who is available for which activities from an approved list of contractors.

Complete site inductions

Conduct on-site inductions using our mobile tools to ensure that contractors are aware of your specific site's safety requirements and working practices.

Pre-qualify all contractors

Use AssureGO+, our mobile app, to onboard and collect all contractor information online.

Issue permits to work

Create, manage and approve permits for contractors and other parties with full visibility across all sites.

Manage contractor information

Ensure qualifications, insurance details and permits are up-to-date by setting automated notifications for renewals.

Monitor performance

Monitor contractor performance and KPIs using our dashboards to ensure you're meeting safety standards.

Proactively Manage Safety with Assure

Assure comes with a suite of standard features that support effective health and safety management. Create a flow of information by capturing data on the mobile web app AssureGO+. This triggers notifications to prompt next steps and ensures that any required actions are closed out efficiently and effectively.

All activities can be visualised and analysed in easy-to-use, configurable dashboards. This enables organisations to make the right strategic decisions to drive continuous improvement.
